

## Press release

**Title:** GEZOLAN AG continues to improve customer proximity

**Place/date:** Dagmersellen, March 2, 2022

**Characters including blanks:** 1,949, released for immediate use

---

**Granules producer has new warehouse for customers in the Middle East**

**GEZOLAN AG continues to improve customer proximity**

**After opening the production plant in the USA (2018) and establishing a consignment warehouse in Germany (2021), the producer of high-quality EPDM granules based in Dagmersellen, Switzerland has opened an additional consignment warehouse in the United Arab Emirates as of March 1, 2022. This allows fast and flexible delivery of EPDM granules by GEZOLAN to customers in the region.**

The new warehouse is situated in Al Faya in the Emirate of Abu Dhabi, with good connections to the major cities of the United Arab Emirates, such as Dubai and Al Ain. Thanks to the local availability, GEZOLAN customers in the region will benefit from shorter delivery times and greater flexibility in responding to customer requirements. The added value lies in the import and customs clearance that have already taken place, so that deliveries can be made faster, more flexibly and with less (import) effort for GEZOLAN customers in the future. EPDM granules from the GEZOFLEX product area will be available in Al Faya in 15 selected standard colors and the standard grain size (1 – 4 mm). Expansion of the products available from the Al Faya warehouse to all 22 standard colors and additional granule sizes will follow soon. Special requests, such as the storage of certain special colors or other grain sizes, can be dealt individually and flexibly.

GEZOLAN will work together with the newly founded local Saxon Sports Group. “With the Saxon Sports Group we have a reliable local partner, who knows the regional requirements very well. We look forward to a cooperative business relationship,” Claus Spiegelbauer, GEZOLAN Area Sales Manager for the Middle East, is confident.

For GEZOLAN, the new warehouse location is a further step in demonstrating our guiding principle we // live // quality through customer proximity and customer orientation.
